

PURE POLLEN
FLOWERS

WEDDING A LA CARTE MENU

PURE POLLEN FLOWERS ARE WILD

Have you ever seen real baby's breath? Not the kind you see on corsages or in the bouquets you pull from grocery store refrigerators. Real baby's breath is more delicate, livelier and just one example of why we strive to grow the kind of florals that would make Mother Nature proud.

And when we say grow, we mean that literally. Our flowers are grown on 2 acres of beautiful Kentucky farmland with respect to the season and our unique climate and geography. We love getting dirt under our nails just as much as we love crafting dynamic arrangements for brides that want local, sustainably grown fresh florals on their big day.

If there is ever a day to be surrounded by the beauty and joy of seasonal florals, it's your wedding day. While many companies rely on sourcing flowers from all over the place to ship in on refrigerated trucks in order to keep consistency all year, we work hard to find the best way to bring your color palette life with flowers that are in season and in town to ensure that there are no duds in your buds.

In the following pages, you'll find our a la carte offerings. This method is ideal for couples who are looking for custom bouquets, centerpieces and extra decorative arrangements for their space in whatever quantities will work best for their event.

If this packet has everything you need, just fill out the form at the bottom and send it our way.

We will get back to you with a confirmation contract within 2 weeks of receipt. If you're the kind of bride who wants to go big with a more complex altarpiece or sculptural arrangement, let's talk! Shoot us a message using the contact form on our website and we'll work together to make your dreams become reality.

Check out the galleries on our website to see some of our favorite wedding florals from every season and when you're ready to go, we'll be ready to grow.

Let's make some magic.
